<b>Issue</b>	<b>Civil Litigation</b>

**PRIVILEGED AND CONFIDENTIAL**  
**POLYGRAPH EXAMINER/ ATTORNEY WORK PRODUCT**

Dear Mr. Kiely:

Pursuant to your request, the undersigned polygraph examiner conducted a Psychophysiological Detection of Deception Test (polygraph examination) with the above referenced examinee, in regards to issues surrounding a civil litigation.

During the pre-test interview, the examinee discussed the relevant issues. These issues were thoroughly discussed and consolidated into the relevant questions for this examination.

<b>Rest</b>	:	Adequate
<b>Pain/Discomfort</b>	:	None
<b>Distraught over situation</b>	:	Yes
<b>Distraught over taking a polygraph</b>	:	No

## POLYGRAPH EXAMINATION

The Air Force Modified General Question Test, Version 2 (AFMGQTv2), a validated and approved test by the three national polygraph organizations and the US Government's Polygraph Institute, was utilized. This test has a scientific accuracy of up to 95%. A Limestone Computerized Polygraph instrument was used to record the subject's cardio/pulse responses, upper and lower respiration, and electrodermal skin conductance tracings. The instrument was functionality-checked per factory procedure for the date of this examination; all functions were satisfactory.

Three examination charts were collected, following one acquaintance test that was administered in order to observe a "known lie" pattern.

The examinee was asked the following relevant questions:

**R4. Have you retaliated in any way against Susanne Schafmeister?**

Subject's reply: No

Result: **No Deception Indicated**

**R5. In the past 7 years, have you had any form of sexual contact with Susanne Schafmeister?**

Subject's reply: No

Result: **No Deception Indicated**

**R7. Did you ever authorize Susanne Schafmeister to pay over \$135,000 from your business account for her personal expenses?**

Subject's reply: No

Result: **No Deception Indicated**

**R8. In July 2019, did you authorize Susanne Schafmeister to issue a check for \$12,000 to herself?**

Subject's reply: No

Result: **No Deception Indicated**

## EXAMINER'S NOTES

The definition of sexual contact included romantic kissing, sexual touching, oral sex or any form of intercourse. It also included any form of communication for the purpose of pursuing sexual physical contact with Suzanne Schafmeister. This included text messages, telephone calls, nude photographs, etc.

## CONCLUSION / OPINION

It is the opinion of the examiner, based upon a procedural review of physiological data evident within the subject's polygraph charts, that there **WERE NO** significant reactions indicative of deception present when the subject replied to the above relevant test questions. Accordingly, the test is scored as **TRUTHFUL**.

## REMARKS

At this time, we have completed the prescribed examination and reported our findings here in.

This concludes our service to you.
